## V10 Compact 2.0

Now even better: Compact

BETTERMANN surge protection

The new V10 Compact 2.0 replaces the established V10 Compact

- High-performance varistor technology
- Compact structure - only 45 mm wide
- Enlarged screw openings
- LED for visual function display
- OVE - externally certified according to DIN EN 61643-11

Compact surge protective device of type $2+3$.
Arresting capacity $I_{n} 10 \mathrm{kA}, \mathrm{I}_{\max } 20 \mathrm{kA}, \mathrm{I}_{\mathrm{n}} \mathrm{N}$-PE 40 kA .
Now, also suitable for the main distribution in systems without
an external lightning protection system and fed in via an earthing cable.

## Surge arrester Vto Compact 2.0

## Surge protective device

Compact module, type 2+3

- Surge protection in main and sub-distributors according to VDE 0100-443 (IEC 60364-4-44)
- Arresting capacity up to 60 kA (8/20) total
- Integrated 3+1 solution for TN and TT network systems on 45 mm module width
- High-performance varistor technology
- Incl. thermal and dynamic cut-off device and visual function display

Application: Main and sub-distributor, as well as device protection in three-phase systems.

## Connection options
